

Forget CheckPoint Discover Stonesoft

Stonesoft/CheckPoint Comparative Datasheet

Why Stonesoft?

Stonesoft Next Generation Firewall, perhaps the best Perimeter Protection on the Market

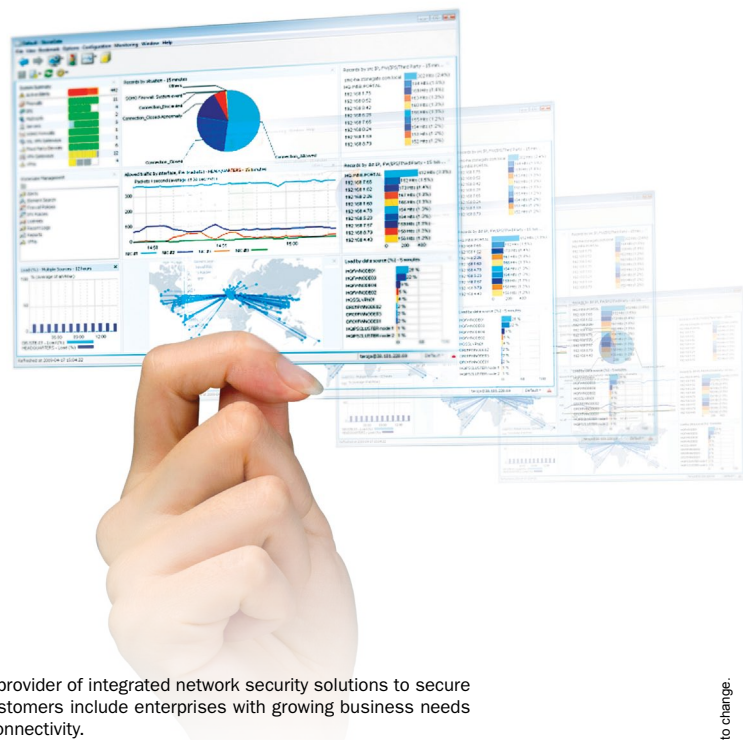

- Stonesoft Firewall is referenced by Gartner as a genuine Next Generation Firewall.
- Stonesoft is easy to use after CheckPoint, the migration is fast, painless and almost transparent.
- Multi-Link functionality and Clustering still works when you add third node in the cluster.
- Stonesoft's Support & Maintenance are acclaimed by customers.
- Stonesoft Virtual Firewall is VMWare Certified Virtual Appliance, CheckPoint's Virtual Firewall runs in a "VMware container"
- Stonesoft is certified "AntiEvasion Ready", CheckPoint is not.

Forget Provider-1 with StoneGate™ Management Center

- Intuitive GUI & Simplified Workflow
- Simplifies and Eases Maintenance
- Smooth version Updates or Upgrades
- Ensures compliance

Reduce TCO

- Stonesoft reduces TCO up to 80% compared to CheckPoint's solutions.
- Stonesoft has many functions and features included in the base price that come in CheckPoint as additional licenses and therefore a lot more expensive.

About Stonesoft

Stonesoft Corporation (NASDAQ OMX: SFT1V) is an innovative provider of integrated network security solutions to secure the information flow of distributed organizations. Stonesoft customers include enterprises with growing business needs requiring advanced network security and always-on business connectivity.

StoneGate™ Secure Connectivity Solution unifies firewall, VPN (Virtual Private Network), IPS (Intrusion Prevention System) and SSL VPN blending network security, end-to-end availability and award-winning load balancing into a unified and centrally managed system. The key benefits of StoneGate the solution include low TCO (Total Cost of Ownership), excellent price-performance ratio and high ROI (Return on Investment). The StoneGate Virtual Security Solutions protect the network and ensure business continuity in both virtual and physical network environments.

StoneGate Management Center provides unified management for StoneGate Firewall with VPN, IPS and SSL VPN. StoneGate Firewall and IPS work together to provide intelligent defense all over the enterprise network while StoneGate SSL VPN provides enhanced security for mobile and remote use.

Founded in 1990, Stonesoft Corporation is a global company with corporate headquarters in Helsinki, Finland and Americas headquarters in Atlanta, Georgia. For more information, visit www.stonesoft.com, www.anti-evasion.com and the corporate blog <http://stoneblog.stonesoft.com>.
